ITW American Safety Technologies
Attn: Mr. Jules Hermele
565 Eagle Rock Avenue
Roseland, NJ 07068

Dear Mr. Hermele:

Based on the results of lot conformance testing performed on a batch of your MS-400G LSA non-skid deck coating, and your company's certification that the change represents less than a 3% change in formulation, qualification is hereby extended to your MS-400G LSA non-skid for Type I, Composition G, with 7CZ primer, and MS-180 or MS-200 color topping.

Your MS-400G LSA is qualified to be manufactured at your Roseland, NJ plant subject to the conditions printed on the reverse side of this page and will appear as follows on the next issue of Qualified Products List QPL-24667:

Government's Designation	Manufacturer's Non-skid	Designation Primer	Designation Clr Topping	Test or Qual. Ref.	Manufacturer's Name & Address
Type I Comp G	MS-400G LSA	MS-7CZ	MS-180 or MS-200	LN1-5, ASTI Ltr of 8/29/02 w/lot test results	ITW American Safety Tech- nologies 565 Eagle Rock Avenue Roseland, NJ 07068 Plant: Same address

Questions concerning this letter may be directed to the undersigned at (202) 781-3734.

Sincerely,

CHERYL A. TURNER
